Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 4, 5, 8-14, 17, 18, 20 and 21 are rejected under 35 U.S.C. 102(b) as being anticipated by the admitted prior art figures 1 and 2.

The admitted prior art figures 1 and 2 discloses a transmission medium (14), an outer jacket (20), disposed about the transmission medium and an end cap (12, 30) swaged on the end of the transmission cable, a conical shape, immovable, seals, a water-blocking material (gel is very commonly used as a water blocking material), a core tube (16), strength members (18), components of the cable, optical fiber.

3. Claims 1, 4, 6-9, 13, 17, 19 and 20 and 22 are rejected under 35 U.S.C. 102(b) as being anticipated by Siebe inc/Salisbury (W H) and Co (cited in IDS).

Siebe inc/Salisbury (W H) and Co discloses a transmission medium, an outer jacket, disposed about the transmission medium and an end cap swaged on the end of the transmission cable, a ring (see marked figure attached), immovable, seals, shape.

4. Claims 1, 4, 5, 8, 9, 13, 17, 18, 20 and 21, are rejected under 35 U.S.C. 102(b) as being anticipated by the Hysol Division cable end caps (cited in IDS).

Hysol Division cable end caps discloses a transmission medium, an outer jacket, disposed about the transmission medium and an end cap swaged on the end of the transmission cable, a conical shape, immovable, seals.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 2, 3, 15 and 16 are rejected under 35 U.S.C. 103(a) as being unpatentable over the admitted prior art figures 1 and 2.

The admitted prior art figures 1 and 2 discloses all the limitations of claims 1 and 13 as shown above,

However, admitted prior art figures 1 and 2 does not disclose:

- a) the cap comprises a metal or aluminum. Official notice is taken bodies of a metal or aluminum is well known in the art. Therefore, it would have been obvious to one of ordinary skill in the art, at the time of the invention for the admitted prior art figures 1 and 2 to have end caps comprises a metal or aluminum in order to make the end caps stronger.

Response to Arguments

7. Applicant's arguments filed on 10/14/2003 have been fully considered but they are not persuasive.

- a) Regarding applicant's comment that the prior art figures 1 and 2 does not show the feature of an end cap "swaged" on an end of a transmission cable. It should be noted that according to **Merriam Webster's Collegiate Dictionary, Tenth**

Edition 1997, the word “swage” means *a tool used by metal workers for shaping their work by holding it on the work or the work on it and striking with a hammer or sledge*. Therefore the cable cannot be swaged without striking with a force, hence reading the claims in view of the prior art figures 1 and 2, the shape can be changed by the use of force of prior art figures 1 and 2.

Conclusion

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
